# KALLEPALLI SAI SAHITH

## JOB OBJECTIVE

Full Stack Developer with **nearly 5 years of experience** in designing and delivering scalable web and mobile applications using the MERN stack. Targeting to leverage expertise in React, Next.js, Node.js, MongoDB, cloud technologies, and modern front-end architectures to build innovative, high-performance solutions in dynamic technology environments.

## CORE COMPETENCIES

Scalable Web Architecture

Agile Software Development

Cloud Infrastructure Management

User Experience Optimization

Continuous Integration & Deployment

API Design & Integration

Performance Tuning & Optimization

Cross-Platform Mobile Development

## TECHNICAL SKILLS

- » **Front-end Technologies:** React.js (18) / Next.js (14) / React Native / Angular / TypeScript
- » **State Management & Routing:** Redux / Zustand / React Router
- » **Back-end & API Development:** Node.js / Express.js / RESTful APIs / GraphQL
- » **Web Technologies:** JavaScript (ES6+) / HTML5 / CSS3 / AJAX / JSON / jQuery
- » **Database Technologies:** MongoDB / SQL / Relational Databases
- » **UI Engineering:** Tailwind CSS / Bootstrap / SASS / NativeBase
- » **Cloud, DevOps & Build Tools:** AWS / CI-CD Pipelines / Jenkins / Webpack
- » **Testing Frameworks:** Jest / Enzyme / Mocha / Jasmine / Karma
- » **Development & Collaboration Tools:** VS Code / Figma / JIRA / Trello
- » **AI-Assisted Development:** GitHub Copilot / Cursor IDE

## PROFILE SUMMARY

- » Full Stack Software Engineer with rich experience in delivering **scalable web and mobile applications** across the complete Software Development Life Cycle (SDLC), specializing in **MERN stack development**, modern JavaScript frameworks, and cloud-enabled solutions.
- » Experienced in designing and developing high-performance applications using **React.js, Next.js, Node.js, Express.js, MongoDB, GraphQL, and TypeScript**, with strong expertise in front-end architecture, API integration, and responsive UI development.
- » Proven track record of delivering business-impacting solutions, including a digital royalty platform for a global music enterprise and an eCommerce recommendation engine that **increased average order value by 18% through data-driven user experiences**.
- » Skilled in **performance optimization, state management, server-side rendering (SSR), static site generation (SSG), CI/CD, automated testing, and cloud technologies**, enabling the delivery of reliable, scalable, and maintainable software products.
- » Strong collaborator and technical leader with experience in mentoring developers, **driving Agile delivery, leveraging AI-assisted development tools, and partnering with cross-functional teams** to accelerate releases, improve code quality, and achieve business objectives.

## WORK EXPERIENCE

Senior Software Engineer | Angular Minds | Dec'21 - Present

Pune, India

Key Result Areas:

- » Leading front-end development initiatives for enterprise web applications using React 18, Next.js 14, GraphQL, and TypeScript, delivering scalable, high-performance, and user-centric digital experiences.
- » Designing and implementing reusable UI architectures, design systems, and component libraries using Tailwind CSS, Zustand, and modern front-end frameworks to improve development efficiency, consistency, and maintainability.
- » Optimizing application performance through Server-Side Rendering (SSR), Static Site Generation (SSG), caching strategies, CDN integration, and asset optimization to enhance user experience and platform scalability.
- » Developing and integrating real-time data solutions using GraphQL and REST APIs while ensuring high availability, robust error handling, and seamless user interactions across enterprise applications.
- » Collaborating with Product Owners, UX teams, Back-end Engineers, and stakeholders in Agile environments, driving architecture decisions, mentoring developers, conducting code reviews, and leveraging AI-assisted development tools to accelerate delivery and improve code quality.

Highlights:

- » Improved Largest Contentful Paint (LCP) by 35% and reduced mobile Time-to-Interactive through SSR, SSG, caching, and front-end performance optimization initiatives.
- » Built a scalable design system comprising 30+ reusable UI components, reducing duplicate development effort by 40%, achieving 99.9% platform availability, and increasing sprint productivity by 25% through the adoption of AI-powered development tools.

## EDUCATION

### Master of Computer Applications (MCA)

SRM Institute of Science & Technology, Tamil Nadu  
2025

### Bachelor of Science (Computer Science)

Acharya Nagarjuna University, Guntur, Andhra Pradesh  
2019

## CERTIFICATIONS

Google AI — Google | Apr 2026

Databases and SQL for Data Science (Python) — IBM | Apr 2024

Deploy on AWS — HCL GUVI | May 2023

## PROJECTS

- » **UMG Royalty Portal | Universal Music Group (via Brillio) | May 2024 – Jun 2026**  
Developed and enhanced a large-scale royalty management platform using Next.js, React, and GraphQL, enabling seamless artist and rights-holder access to royalty data. Improved application performance through SSR/SSG optimization and implemented a scalable design system using Tailwind CSS and Zustand.
- » **Co-Commerce Platform | Jan 2023 – Mar 2024**  
Engineered a multi-vendor eCommerce platform supporting 10,000+ SKUs and multi-currency transactions. Developed a recommendation engine that increased average order value by 18% and built merchant management tools that reduced operational errors by 30%.
- » **E-Sign Portal | Mar 2021 – Dec 2022**  
Developed a secure, role-based e-signature platform enabling document creation, e-sign workflows, template management, email notifications, and subscription billing, improving digital document processing and reducing manual paperwork.
- » **Online Skills Assessment Platform | Dec 2021 – Jan 2022**  
Built a multi-tenant EdTech SaaS platform using React Native and NativeBase, enabling assessment management, subscription administration, and cross-platform mobile access. Achieved a post-release defect rate below 2% through automated testing and robust quality assurance practices.

## PERSONAL DETAILS

Date of Birth : 23<sup>rd</sup> July 1997  
Languages Known : English, Telugu & Hindi  
Address : Hyderabad, 500032, India
